

Disclosures required by the European Union's Sustainable Finance Disclosure Regulation

Publication version: Version 2.0

Publication date: 20 February 2022

General considerations for sustainability risks: Planetary Impact Ventures Fund K/S, CVR-no 43366904 is an alternative investment fund ("the fund") managed by Planetary Impact Ventures Fund A/S, CVR-no. 41889675 ("Fund manager").

When making investments, the Fund manager considers the ethical, environmental and societal consequences of our investments.

Awareness of sustainability risks is built into all of our processes, from our screening and due diligence to our portfolio governance and monitoring.

The Fund Managers remuneration policies are structured to the effect that these do not encourage excessive risk-taking with respect to sustainability risks.

Consideration of principle adverse impacts

While the Fund Manager does consider sustainability risks in its investment decisions, the Fund Manager does not consider all of the specific adverse impact indicators set out in Annex 1 of the Commission's delegated regulation supplementing Regulation (EU) 2019/2088 (the Sustainable Finance Disclosure Regulation) in its investment decisions, as the Fund Managers has estimated that it is beyond the current capability of the Fund Manager to consider all specific impact indicators at this point.

The Fund Manager will, however, on a continuous basis, assess whether to consider all the specific adverse impact indicators set out in Table 1-3 of Annex 1 in its investment decisions.
